

September 2011

## ***MTRE is proud to launch the new pediatric CureWrap product line***

### **MTRE's New CureWrap Product Line**

#### **Follows the New Recommendations for Infants and Children in the 2010**

#### **European Resuscitation Council (ERC) Guidelines on Resuscitation<sup>1</sup>**

The message of the 2010 guidelines is loud and clear for all patient populations- Newborns, Pediatric and Adults : "Immediate and hard chest compressions, early defibrillation, and **cooling are the key factors of resuscitation**"

As pioneers in the Therapeutic Hypothermia market, **MTRE** brings our clinical experience collected in the last decade.

**MTRE** developed 8 pediatric CureWrap types to cover the whole newborn to adult population. There are 4 new Box Models with 2 types of CureWraps in each:

**Small:** Covers Newborns

**Medium:** Covers Toddlers

**Large:** Covers Young children

**X-Large:** Covers Older children to Adult size

### ***Pediatric CureWrap Model Types and sizes:***
